

д. Никулино

The map shows the settlement area of Niukulino, outlined with a dashed black line. The area is divided into several colored zones: a large yellow-green central zone, a purple zone on the left, and a light green zone on the right. A central rectangular area is highlighted with a black border and contains a small building icon. Numbered markers (1-10) are placed throughout the settlement area. A river, labeled 'р. Стародубка', flows along the bottom edge of the settlement. A small inset map in the top right corner shows the location of the settlement within a larger regional context.
